Professional Summary

– Debugged and optimized complex algorithms in C++ , securing a 1897 LeetCode rating and placing in the top 5% globally.
– Architected and deployed full-stack web applications using JavaScript, React, Node.js, and MongoDB.
– Automated and customized software solutions in polyglot environments, delivering scalable systems in agile teams.
– Strengthened code quality and system performance through test-driven development and continuous integration.

Skills

Languages: C++, C, JavaScript, TypeScript, Python, Java, HTML, CSS, SQL, MongoDB
Frameworks, Lib. & Tools: React.js, Next.js, Node.js, Express.js, Clerk, Firebase, Git, GitHub, Material UI
Technologies: MERN Stack, RESTful APIs, Firebase Authentication, Cloud Functions
Development Style: Polyglot developer (C++, Python, Java, JavaScript)
Others: DSA, VS Code, GitHub actions, Postman

Education

Sir M. Visvesaraya Institute of Technology   Dec 2021 – Jun 2025
Bachelors of Engineering   *Bangalore, India*

– CGPA: 8.55/10
– Relevant Coursework: Data Structures & Algorithms, OOPS, DBMS, Operating Systems, Computer Networks

Experience

Moaisus Global Solutions   Sep 2024 – Feb 2025
Web Developer Intern   *Remote*

– Collaborated with backend team using agile methodology to integrate APIs, improving dashboard functionality by 25%.
– Followed SDLC and Agile methodologies during development and documented API endpoints ,architecture decisions,and user interface flows to support future development and onboarding.
– Developed responsive web apps using React.js and Material UI, increasing user engagement by 30%.
– Enhanced UI/UX design, reducing load times by 15% through optimization.
– Participated in code reviews and team discussions to improve system design and maintainability.

Freelancer   Dec 2023 – Jun 2024
Frontend Developer   *Remote*

– Created apps for Ayodhya Darshanam Tours and Travels, increasing customer engagement by 20%.
– Implemented SEO strategies, improving site traffic by 15%.
– Reduced complaints by 20% with UI improvements and bug fixes.

Projects

Airbnb - Full-Stack Rental Booking Platform   Feb 2025 – Mar 2025
React.js, Node.js, Express.js, MongoDB, Cloudinary, REST API

– Built a full-stack rental platform with listings, bookings, and search; improved UI responsiveness by 22%.
– Engineered secure user authentication system using Passport.js and JSON Web Tokens, enabling role-based access control and decreasing average authentication response time by 18% for all users.
– Optimized media with Cloudinary, reducing image storage usage by 25%.

E-commerce App with Admin Panel   Mar 2025 – Apr 2025
React.js, Node.js, Express.js, MongoDB, Cloudinary, PayPal, REST API

– Developed an e-commerce platform with product listings, cart, checkout, and order tracking.
– Engineered a real-time admin panel utilizing React.js and Node.js for streamlined product and user management, leading to a 15% improvement in administrator task completion rate..
– Integrated PayPal to reduce checkout time by 18%.
– Compressed media files with Cloudinary, reducing storage costs by 25%.

Achievements

– Achieved **Knight** status on LeetCode with a competitive rating of **1897**, ranking among the top **5%** globally.
– Earned a **3-Star** coder status on CodeChef through consistent high-performance in contests.
– Ranked **355** in CodeChef Starters 164 among 10,000+ participants.
– Placed **508th** in LeetCode Biweekly Contest 147 with 90%+ accuracy.
